# IOSH EXPLOSION SAFETY MANAGEMENT (ATEX)

Develop the knowledge and skills to safely manage explosive atmospheres in hazardous environments.

**Occupli**

Putting Safety  
To Work

## Explosion Safety Knowledge

Develop an understanding of how explosions occur, including flammable limits, ignition sources, combustion principles and explosion risk factors.

## Hazardous Area Classification

Learn how to identify hazardous areas and apply zone classifications for environments where explosive atmospheres may occur.

## Explosion Risk Management Skills

Gain the ability to assess explosion hazards, implement control measures and manage compliance with ATEX regulations in industrial workplaces.

## About The Course

The IOSH Explosion Safety Management (ATEX) course provides professionals with the knowledge required to identify, assess and manage explosion risks in workplaces where flammable gases, vapours or combustible dusts may be present.

## Course Key Details

- Location: Cork & Dublin
- Duration: 3 Days
- Delivery: Classroom or Live Online Training
- Class Size: 12 Maximum
- Assessment: Knowledge and practical learning exercises
- Certification: IOSH Explosion Safety Management

# MANAGE EXPLOSION RISKS IN YOUR WORKPLACE

**Occupli**

Putting Safety  
To Work

## Strengthen Explosion Safety Expertise

Explosion incidents can have serious consequences for people, facilities and business operations.

This course equips professionals with the knowledge required to understand explosion risks and implement effective prevention strategies within their organisation.

Participants gain practical insights that can be applied immediately to improve workplace safety and risk management.

Many industries operate in environments where flammable gases, vapours or combustible dusts may create explosive atmospheres.

By completing the IOSH Explosion Safety Management (ATEX) course, organisations can develop the internal knowledge required to identify hazards, implement safety controls and reduce the risk of explosion incidents.
