

Putting Safety To Work

IOSH MANAGING SAFELY

Health & Safety Training for Managers and Supervisors

Managing Safely

Learn why health and safety is an essential part of effective management and how managers play a key role in creating safer workplaces.

Assessing Risks

Develop practical skills to identify hazards, carry out risk assessments and implement appropriate risk control measures.

Understanding Responsibilities

Understand the legal and organisational responsibilities managers have for workplace health and safety.

About The Course

The IOSH Managing Safely course is a globally recognised health and safety training programme designed for managers and supervisors in any industry. It provides practical knowledge and tools to help managers identify workplace hazards, assess risks and implement effective safety controls.

3 DAYS OF

ONLINE INSTRUCTOR TRAINING

Occuppli

Putting Safety
To Work

Hazard Awareness

Learn how to recognise common workplace hazards and understand how they can impact people and operations.

Incident Investigation

Understand how accidents and near misses occur and how to investigate incidents effectively.

Measuring Performance

Learn how to monitor and review health and safety performance to support continuous improvement.

IOSH Managing Safely Refresher

If you have previously completed IOSH Managing Safely, the IOSH Managing Safely Refresher course is a one-day programme designed to update your knowledge and reinforce key safety management principles. The refresher course helps managers stay up to date with best practices in managing workplace health and safety.

Who are IOSH?

The Institution of Occupational Safety and Health (IOSH) is the world's largest professional body for health and safety. It develops globally recognised training programmes to improve workplace safety.
